FIRELOK

PRODUCTOS AUTOMOTRICES

LEON[®]

Es una balata con características que garantizan su desempeño bajo condiciones extremas del ambiente como pueden ser humedad, calor extremo, lluvia, frío, presión del pedal y velocidad alta o baja.

- Presenta un coeficiente de fricción adecuado y estable a cualquier rango de temperatura y presión.
- Mantiene un equilibrio entre abrasión y resistencia al desgaste.
- Una cierta compresibilidad de la balata, tanto en frío como en caliente, que haga que el material absorba vibraciones e irregularidades de la otra superficie con la que entra en contacto.
- Una buena resistencia al choque y al cizallamiento

Nomenclatura del Coeficiente de Fricción

CARBONO

EF o FF
